

Volunteer with CHA!

Help your fellow New Yorkers:

- Find and keep health insurance,
- Take advantage of health reform,
- Find affordable health care and medications,
- Resolve disputes with insurers, and more.

Community Health Advocates (CHA) is New York State's health insurance consumer assistance program, newly created under federal health reform.

CHA Volunteer Advocates, once trained, answer a statewide hotline together with full-time case handlers. We're seeking volunteers to commit at least eight hours per week to this challenging and important project on a long-term basis.

HELP MAKE HEALTH REFORM WORK!
